Pavement Schedule Spring 2016

For Immediate Release - March 18 2016

Milling and paving is scheduled to start on Ridgeway on the 28th of March. Work will start at the intersection of Commercial Avenue and continue past the intersection of Roxbury Street. This work is expected to continue until complete. This project is planned to take 4 days. During this time parking will only be permitted on alternate sides of street parking starting on the even side between 7 AM and 5 PM. Temporary signs will be placed to advise the users on the day the parking restriction apply and which side of the road that will be no parking.

Also during this week a section of Commercial will have pavement restoration (milling and paving) an area approximately 330 feet long in the 600 Block.

There will be some lane closures and intermittent delays to facilitate this work.

As always with outside work, the weather may delay this schedule. Any changes will be posted on the Town's web site at: www.cliftonforgeva.gov and on barricades at the entry points to each location.

The Town requests your cooperation and patience in observing signs and flag persons for the safety of the workers and the public.

If anyone has concerns or questions regarding the work, please contact Public Works at (540) 863-2517.
