

Jefferson School Study Survey

Jefferson/East Elementary School Feasibility Survey

The Town of Clifton Forge recently received a Community Impact Grant to conduct a feasibility study for the Jefferson/East Elementary School.

This study is intended to engage with community stakeholders to identify what they would like to see this building used for, then develop a concept for the building's reuse based on this input. This concept, once developed, will be shared with the community and used to attract potential developers for the project.

We would like to hear from you on what you envision for this important building in our community. This survey should take you 5-10 minutes to complete. Thank you for your time and input!
